**DETAILED ACTION**

**DRAWINGS**

Applicant is hereby notified that the required timing for the correction of drawings has changed. See the last 6 lines on the sheet which is attached entitled "Attachment for PTO-948 (Rev. 03/01 or earlier)". It is noted that a PTO Form 948 is mailed herewith. Due to the above notification Applicant is required to submit drawing corrections within the time period set for responding to this Office action. Failure to respond to this requirement may result in abandonment of the instant application or a notice of a failure to fully respond to this Office action.

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 46 and 51-74, drawn to a tissue microarray information system, classified in class 702, subclass 19.
- II. Claims 47-50 and 75, drawn to a method of ordering a customized tissue microarray, classified in class 705, subclass 11.

The inventions are distinct, each from the other because:

The inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, the Group I invention is directed to information regarding tissue specimens on a microarray which are already available as is commonly the situation for tissue samples. In contrast, the Group II invention is directed to customization of microarrays where a customer does not utilize

what is already available but customizes the ordering of a microarray of tissue specimens. Customization versus not is a very different type of user or customer interaction with a supplier and is most often separately described and available thus documenting the undue search burden if Groups I and II were to be searched together.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Papers related to this application may be submitted to Technical Center 1600 by facsimile transmission. Papers should be faxed to Technical Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notices published in the Official Gazette, 1096 OG 30 (November 15, 1988), 1156 OG 61 (November 16, 1993), and 1157 OG 94 (December 28, 1993)(See 37 CFR § 1.6(d)). The CM1 Fax Center number is either (703)308-4242 or (703)305-3014.
